Cyclanilide; Establishment of a Temporary Tolerance

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA has established a temporary tolerance for residues of the

plant growth regulator cyclanilide in or on the raw agricultural commodity cottonseed. This temporary tolerance was requested by Rhone-Poulenc Ag Company.

DATES: This temporary tolerance expires August 14, 1996.

FOR FURTHER INFORMATION CONTACT: By mail: James Stone, Acting Product Manager (PM) 22, Registration Division (7505C), Office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. Office location and telephone number: Rm. 229, CM#2, 1921 Jefferson Davis Highway, Arlington, VA, (703) 557-7391; e-mail: stone.james@epamail.epa.gov.

SUPPLEMENTARY INFORMATION: Rhone-Poulenc Ag Company, P.O. Box 12014, Research Triangle Park, NC 27709, has requested in pesticide petition (PP) 4G4414 the establishment of a temporary tolerance for residues of the plant growth regulator cyclanilide, 1-(2,4-dichlorophenylaminocarbonyl)-cyclopropane carboxylic acid in or on the raw agricultural commodity cottonseed at 0.5 parts per million (ppm). This temporary tolerance will permit the marketing of the above raw agricultural commodity when treated in accordance with the provisions of the experimental use permit 264-EUP-97 which is being issued under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (Pub. L. 95-396, 92 Stat. 819; 7 U.S.C. 136).

The scientific data reported and other relevant material were evaluated, and it was determined that establishment of a temporary tolerance will protect the public health. Therefore, the temporary tolerance has been established on the condition that the pesticide be used in accordance with the experimental use permit and with the following provisions:

1. The total amount of the active ingredient to be used must not exceed the quantity authorized by the experimental use permit.

2. Rhone-Poulenc Ag Co., must immediately notify the EPA of any findings from the experimental use that have a bearing on safety. The company must also keep records of production, distribution, and performance and on request make the records available to any authorized officer or employee of the EPA or the Food and Drug Administration.

This tolerance expires August 14, 1996. Residues not in excess of this amount remaining in or on the raw agricultural commodity after this expiration date will not be considered actionable if the pesticide is legally
